

DN00386 NCDOT Rest Area

Building Construction

Macon County Rest Area

In 2015, Owle Construction, LLC completed a renovation and addition project at the Macon County Rest Area that is located adjacent to US Routes 23/441. The project consisted of a complete interior demolition and renovation of the restroom wing and the addition of a family restroom. The rest area was redesigned to meet ADA standards for accessibility. Wood, tiles, and glass blocks were used to update the space and provide a rustic feel that compliments the natural beauty of the area.
