

# CONCRETE HARDSCAPE

Harrah's Cherokee Casino

Stained, Exposed aggregate concrete

## 2B HARDSCAPE

Owle Construction, LLC performed the concrete hardscape for the Harrah's Cherokee Renovation project. This project utilized intricate banded patterns; stained, exposed aggregate concrete to accentuate the surroundings; and complex construction phasing. Along with the concrete, Owle completed the fencing; rock masonry; drainage; and FF&E required to create this focal point for the Harrah's Cherokee Casino campus.
