Bridge Construction

Highway 107 Bridge

In 2014, Owle Construction, LLC completed construction of the C201166 NCDOT Highway 107 Bridge project over the Tuckasegee River in Jackson County, NC. The three span, multi-phase, pre-cast concrete beam structure is supported on H-piles and drilled piers. Additional intricate features include reinforced rock anchor cut slope and large –scale rock plating slope protection.
